

Lot 5 : Advanced modules of Jakarta EE stack Day 4

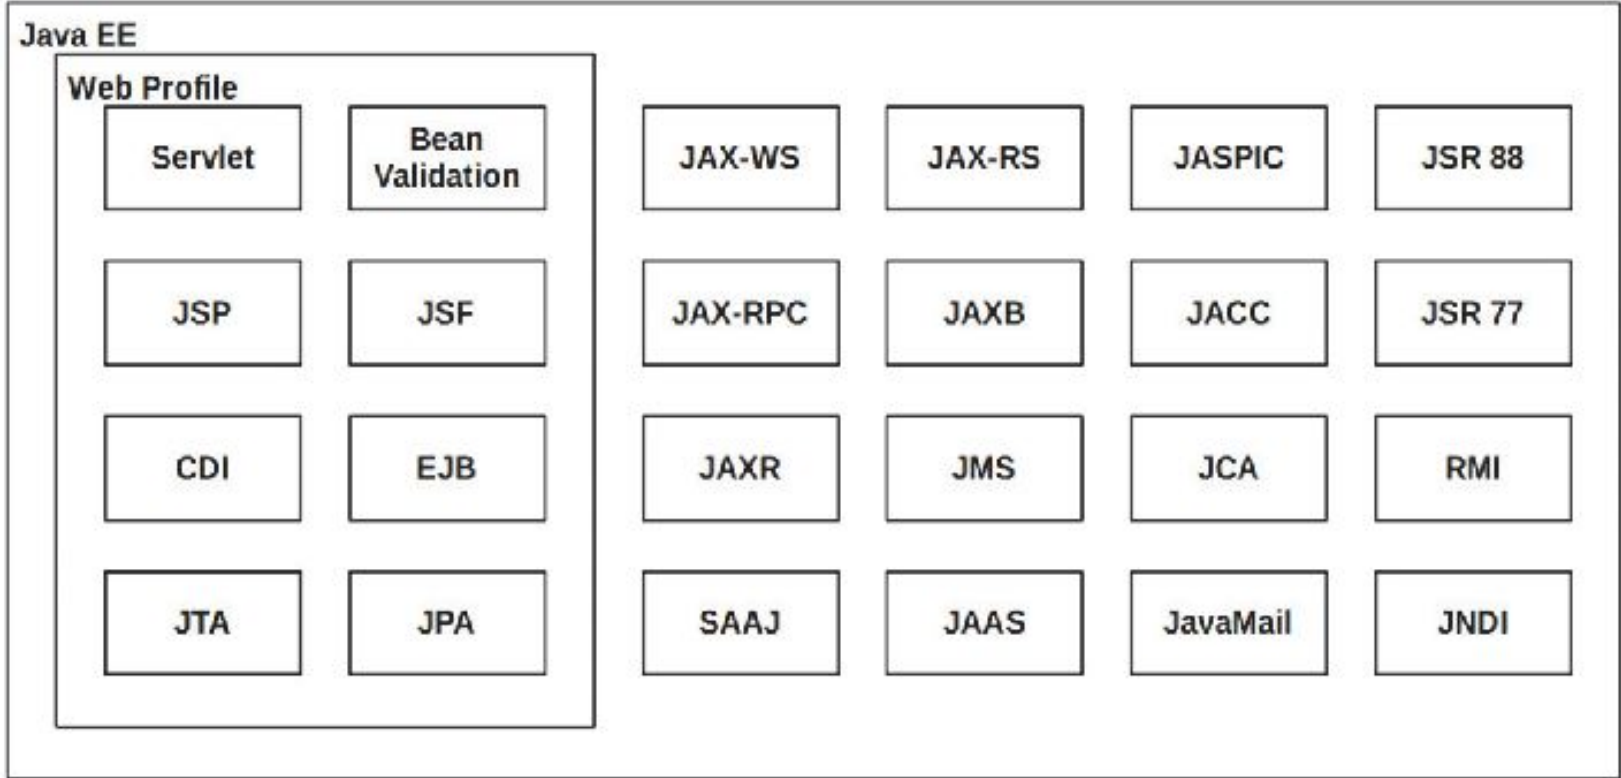

Training @FPS on November 19th 2020

Agenda

1. Day 3 recap
2. JEE Platform
3. Popular Vendors
4. Understanding Dependency Injection
5. CDI Features

Credit : https://www.ivonet.nl/2017/10/02/CON2661__java-ee-8-what_s-new-in-the-java-ee-8-release/

Jakarta EE 8 Platform Compatible Products

Apusic AAS
Kingdee Apusic cloud computing
Co., Ltd.

10

Eclipse Glassfish
Eclipse Foundation

5.1.0

FUJITSU Software
Enterprise Application Platform

**FUJITSU Software Enterprise
Application Platform**
Fujitsu Limited

v1.0

IBM WebSphere Liberty
IBM Corporation

20.0.0.3

**JBoss Enterprise Application
Platform**
Red Hat

7.3.0

JEUS
TmaxSoft Co., Ltd

8.5

Open Liberty
IBM Corporation

19.0.0.6 20.0.0.3

Payara Server
Payara Services Limited

5.21.2

Primeton AppServer
Primeton

7

WildFly
Red Hat

18.0.0

Web Servers	Application Servers
Servlets	Servlets
JSP	JSP
Expression Language	Expression Language
WebSocket	WebSocket
JTA	JTA
JASPIC	Batch
	CDI
	Bean Validation
	EJB
	JPA
	JMS
	JSON-P
	JavaMail
	JAX-RS
	JAX-WS

HTTP to HTTPS

Apache TomEE WebProfile

- ★ JSF MyFaces
- ★ JPA OpenJPA
- ★ Jakarta Web Profile

Apache TomEE MicroProfile

- ★ MicroProfile
- ★ JSF MyFaces
- ★ JPA OpenJPA
- ★ Jakarta Web Profile

Apache TomEE+

- ★ JMS
- ★ JAX-WS
- ★ Jakarta Connectors
- ★ MicroProfile
- ★ JSF MyFaces
- ★ JPA OpenJPA
- ★ Jakarta Web Profile

Apache TomEE PluME

- ★ JMS
- ★ JAX-WS
- ★ Jakarta Connectors
- ★ MicroProfile
- ★ JSF Mojarra
- ★ JPA EclipseLink
- ★ JPA OpenJPA
- ★ Jakarta Web Profile

COMPARISON TABLE

GlassFish 5 x Payara Server 5

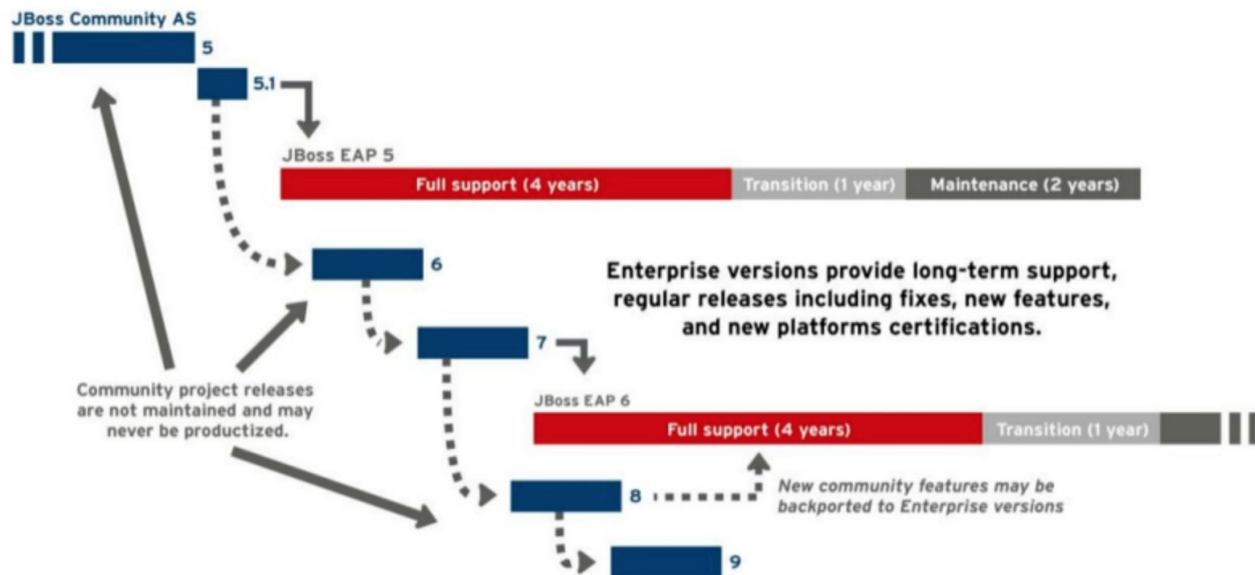

Features	GlassFish 5.x	Payara Server Enterprise
License	Open Source	Open Source
Release Frequency	Irregular	Monthly
Releases in 2019	1	22: 4 community stream, 12 stability stream, 8 feature stream
Security fixes	Infrequent	<ul style="list-style-type: none"> Instant emergency and backported fixes for Payara Enterprise customers As soon as possible for community
Component Upgrades (e.g. Tyrus, Mojarra)	Irregular	As Needed
Supported IDEs	<ul style="list-style-type: none"> Eclipse Netbeans IntelliJ IDEA 	<ul style="list-style-type: none"> Eclipse Netbeans IntelliJ IDEA Visual Studio Code
Caching tools	✗	JCache, Domain Data Grid, Payara Scales (additional cost)
MicroProfile Support	✗	Compatible with MicroProfile
Docker support	Community provided	Official images

Features	GlassFish 5.x	Payara Server Enterprise
Production Support	✗	✓
Migration & Project Support	✗	✓
Automatic Clustering	✗	✓ (via Hazelcast)
Asadmin command recorder	✗	✓
Slow SQL logging	✗	✓
Healthcheck service	✗	✓
Request Tracing	✗	✓
Monitoring logging	✗	✓
Microservices distribution	✗	✓ (Payara Micro)
HTTP & HTTPS port auto-binding	✗	✓ (Payara Micro only)
Generate Uber JAR	✗	✓ (Payara Micro only)
Production-tuned domain template	✗	✓
Upgrade tool	✗	✗ (coming soon)
Jakarta EE Compatible	✓	✓
Runs on JDK 11	✗	✓

JBoss AS vs JBoss EAP

While **community projects** continue to rapidly evolve, **enterprise middleware products** focus on long term stability.

Arquillian Intro Workshops

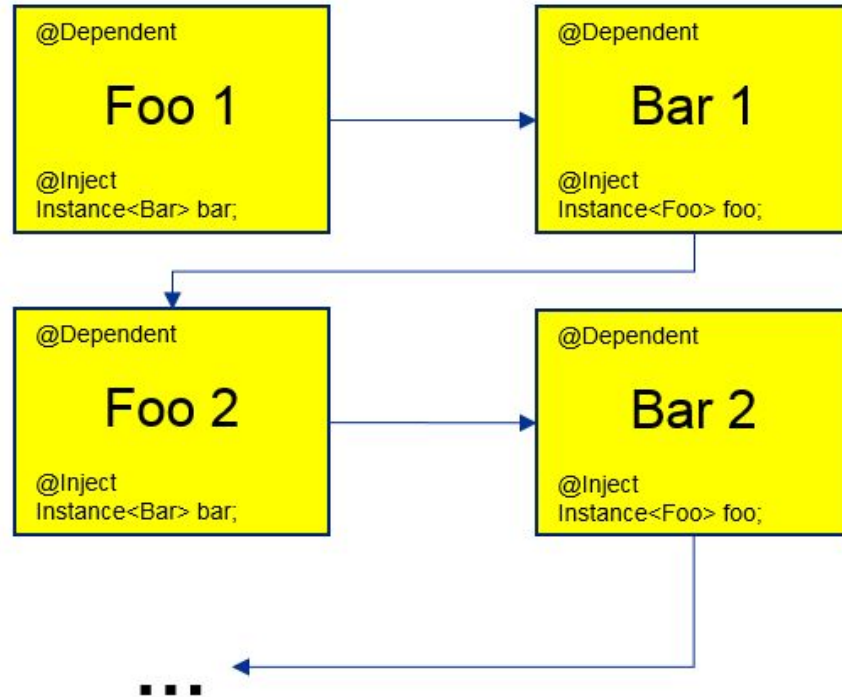

Dependency

- OOP
- Single purpose classes
- Class A depends on Class B
- Allows reuse of fonctionnality

CDI

- At least 2 beans/services working together
- Context service manages the object
- Injection service resolves dependencies and injects the object

Context Service

- Refined by scopes with annotations
 - RequestScoped
 - ApplicationScoped
 - SessionScoped
 - ConversationScoped
 - Dependent
- Provides a managed environment

CDI Bean

- Part of the CDI ecosystem
- Instantiated by the CDI container
- Bean discovery initiated during deployment
- CDI for Java 2.0 (JSR 365)

JSR Implementations

- Reference Implementation : Jboss Weld
- Apache OpenWebBeans
- CDI Extensions : APache DeltaSpike and Jboss Seam

CDI Bean usage

- Injection can be any type
- Programming to interfaces
- Which instance to Inject ?
- Qualifiers disambiguate

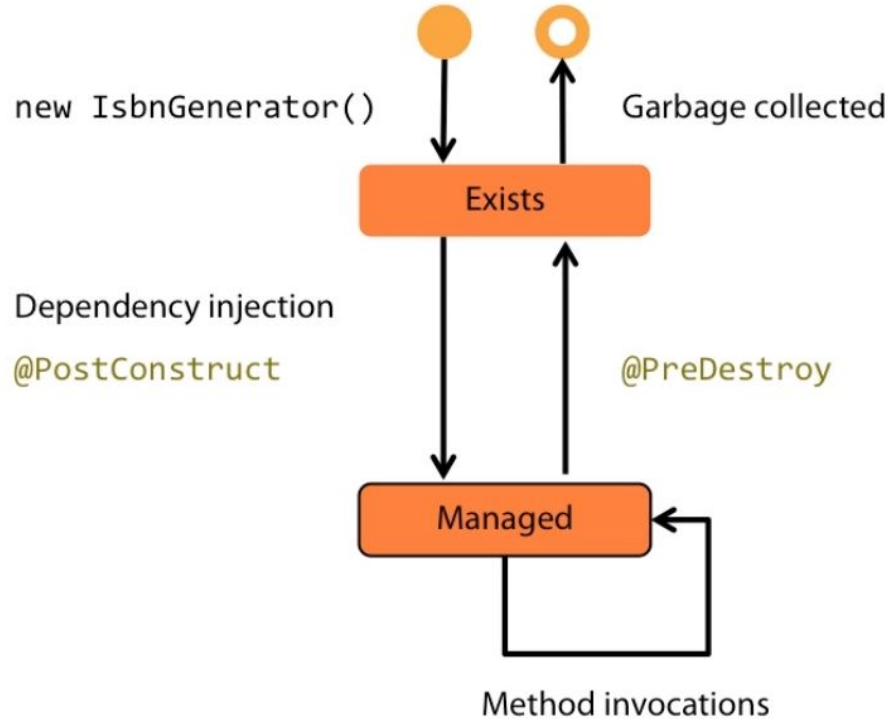

CDI Bean Usage

@Vetoed : Prevents instantiation

@Alternative : provides alternative implementations

@Any & @Default

CDI Bean Lifecycle Management

CDI Bean : Scopes and Context

- Lifecycle duration match to web/application concepts
- Automatically created and destroyed
- Default scope : `@Dependent`

Workshops on CDI & Integration with JPA
